The Provisional Austrian Regime in Lombardy-Venetia, 1814-1815

Dec 12 2020 When Austrian soldiers first set foot in Lombardy-Venetia in October, 1813, they were greeted everywhere as liberators and friends.

In the spring of 1815, when Joachim Murat's efforts to establish a united Italy ended in miserable failure and when the Habsburgs announced the main features of the regime they intended to establish in their Italian provinces, the Venetians were still strongly pro-Austrian, but considerable anti-Habsburg feeling had developed among the Lombards.

This carefully documented study of the first two years of Austrian reoccupation of Lombardy-Venetia examines all aspects of the Habsburg provisional regimes and draws some conclusions about the reasons for the different attitudes in the two provinces. In detailed sketches of the provisional governments of Venetia (Chapter I) and Lombardy (Chapter II) and an examination of Austrian economic policies and practices in both provinces (Chapter III), the author shows that although the

governments of the two provinces shared many common traits, they differed in a number of significant ways. Actually, Venetia was much less efficiently governed than Lombardy; and the Lombards enjoyed at least a small measure of self-administration that was largely denied the Venetians. The Lombards were much more prosperous than their neighbors, yet they paid much less in taxes and were exempt from most of the burdensome military requisitions that the Austrians inflicted on the Venetians. In spite of these advantages, the relatively small nationalist movement in Austria's Italian provinces was almost entirely confined to Lombardy. The author examines public opinion in Lombardy-Venetia about liberal intrigues (Chapter IV); the relationship of secret societies to liberalism (Chapter V); the Brescian-Milanese conspiracy (Chapter VI) and the Austrian handling of that affair (Chapter VII); and the fiasco of Joachim Murat's "War of Italian Independence" (Chapter VIII).

Handbook of World Exchange Rates, 1590-1914 Nov 22 2021 As a world economy emerged from the 16th-17th centuries onwards, a global cashless payment system arose. This had its base in Europe, first in Italy, then in the rising regions of the north-west, with Amsterdam and then London as the central financial market. The mutual quotation of exchange rates, which provide the data tabulated and analysed here, mark the integration into a global network of all areas with significant economic potential. The primary aim of this book is to provide a compact account of the exchange rates in all these financial markets, from the late 16th century up to the First World War. This makes possible an instant conversion between the major world currencies at nearly any date within that period, while the important introduction provides the explanation and context of developments. The present handbook therefore serves as an invaluable resource for those concerned with all aspects of commercial and financial history.
