career spanning over four  
**gradient boosting classification explained  
through python** Nov 03 2020 web 05 09 2020  
gradient boosting in gradient boosting each  
predictor tries to improve on its predecessor by  
reducing the errors but the fascinating idea  
behind gradient boosting is that instead of  
fitting a predictor on the data at each iteration  
it actually fits a new predictor to the residual  
errors made by the previous predictor let s go  
through a step by step
