Climatological Data for the United States by Sections Mar 12 2021 A collection of the monthly climatological reports of the states, originally issued separately for each state or section. Similar data was combined in the Monthly weather review for July 1909 to Dec. 1913, also pub. separately during that time for each of the 12 districts. Previous to July 1909 monthly reports were issued for each state or section.

The New York Times Index Apr 12 2021

Culture, Power and Personality in Medieval France Jul 24 2019 This collection is a notable example of how the cultural history of the middle ages can be written in terms that satisfy both the historian and the literary scholar. John Benton's knowledge of the personnel, structure and finance of medieval courts complemented his understanding of the literature they produced.

To Infinity and Beyond Dec 21 2021 The infinite! No other question has ever moved so profoundly the spirit of man; no other idea has so fruitfully stimulated his intellect; yet no other concept stands in greater need of clarification than that of the infinite. . . - David Hilbert (1862-1943) Infinity is a fathomless gulf, There is a story attributed to David Hilbert, the preeminent mathematician into which all things mathematician whose quotation appears above. A man walked into a vanish. hotel late one night and asked for a room. "Sorry, we don't have a Marcus Aurelius (121-180), Roman Emperor any more vacancies," replied the owner, "but let's see, perhaps and philosopher I can find you a room after all" Leaving his desk, the owner reluctantly awakened

his guests and asked them to change their rooms: the occupant of room #1 would move to room #2, the occupant of room #2 would move to room #3, and so on until each occupant had moved one room over. To the utter astonishment of our latecomer, room #1 suddenly became vacated, and he happily moved in and settled down for the night. But a numbing thought kept him from sleep: How could it be that by merely moving the occupants from one room to another, the first room had become vacated? (Remember, all of the rooms were occupied when he arrived.)

From Cosmopolitanism to Human Rights May 14 2021 This book explores a democratic theory of international law. Characterised by a back-and-forth between theory and practice, it explores the question from two perspectives: a theoretical level which reflects and criticizes the categories, words and concepts through which international law is understood, and a more applied level focussing on 'cosmopolitan building sites' or the practical features of the law, such as the role of civil society in international organisations or reform of the UN Security Council. Though written for an academic audience, it will have a more general appeal and be of interest to all those concerned with how international governance is developing.
