The Billionaire's Book of Headaches Oct 26 2019 What should you do about headaches if money was no problem? The Billionaire's Book of Headaches is what leading neurologist Dr. Raeburn Forbes would say to someone for whom money was no object. You need to benefit from the results of research. Try to understand headaches, and headache treatment, better. Research tells us what

happens over a lifetime to people with frequent headaches, so you need to sort out your thinking and expectations first. Then find out why looking for causes is a waste of time - it's not about curing headaches, but reducing risk. Next you must avoid common mistakes with medicines. If you don't use them properly you get the side-effects but no benefits. Have a plan of action and stick to it. You have to look at drug-free options. Apart from eye tests, most people overlook these. Drug-free options are safer - but as powerful - as any of the medicines on offer. Last of all, discover the truth about migraine triggers. Dr Forbes talks about 'The Law of Migraine Triggers'. Is it time you broke this law? At the end of the book there is even a section on what to do when it seems like nothing has worked. This is a new approach to headaches that puts you back in control. You'll be lucky to get 15 minutes with your doctor to discuss headaches. If you know that you do not have

The Billionaire Murders Nov 27 2019 NATIONAL BESTSELLER A top journalist crosses the yellow tape to investigate a shocking high-society crime. Billionaires, philanthropists, socialites . . . victims. Barry and Honey Sherman appeared to lead charmed lives. But the world was shocked in late 2017 when their bodies were found

in a bizarre tableau in their elegant Toronto home. First described as murder-suicide — belts looped around their necks, they were found seated beside their basement swimming pool — police later ruled it a staged, targeted double murder. Nothing about the case made sense to friends of the founder of one of the world's largest generic pharmaceutical firms and his wife, a powerhouse in Canada's charity world. Together, their wealth has been estimated at well over \$4.7 billion. There was another side to the story. A strategic genius who built a large generic drug company — Apotex Inc. — Barry Sherman was a self-described workaholic, renowned risk-taker, and disruptor during his fifty-year career. Regarded as a generous friend by many, Sherman was also feared by others. He was criticized for stifling academic freedom and using the courts to win at all costs. Upset with building issues at his mansion, he sued and recouped millions from tradespeople. At the time of his

Toronto Star investigative journalist Kevin Donovan chronicles the unsettling story from the beginning, interviewing family members, friends, and colleagues, and sheds new light on the Shermans' lives and the disturbing double murder.

Deeply researched and authoritative, *The Billionaire Murders* is a compulsively readable tale of a strange and perplexing crime.
