*Mum's the Word* Jul 04 2020 Eve Bransons life reads like a fast-paced adventure novel. A classically trained ballet dancer, she appeared in racy West End productions, disguised herself as a boy to take glider lessons, enlisted in the Womens Royal Navy Service, and then embarked on a series of harrowing adventures as a Star Girl air hostess on the ill-fated British South American Airways. Though marrying the dashing ex-Cavalry officer, Edward Ted Branson, brought her down to earth to raise three children, Eves quest for adventure never faltered. After running several businesses, traveling the world, and doing global charity work, Eve is preparing to launch the first commercial space travelers to the edge of space in a Virgin Galactic mother ship that bears her name. In this lively, absorbing memoir part diary, part adventure story, part family history Eve Bransons formidable energy propels the reader through an extraordinary life. Along the way, she divulges some of the unorthodox but effective trade secrets behind raising one of the worlds most colourful entrepreneurs.

**Perfect** Oct 19 2021 'It is her clever did-I-read-that-right twist at the end that really got to me and had me scrabbling through the chapters, open-mouthed.' Evening Standard Summer, 1972: In the claustrophobic heat, eleven-year-old Byron and his friend begin 'Operation Perfect', a hapless mission to rescue Byron's mother from impending crisis. Winter, present day: As frost creeps

across the moor, Jim cleans tables in the local café, a solitary figure struggling with OCD. His job is a relief from the rituals that govern his nights. Little would seem to connect them except that two seconds can change everything. And if your world can be shattered in an instant, can time also put it right?

*Words That Listen* Feb 29 2020 • An accessible and distinctive anthology of texts to support preaching and enhance individual devotion • Consulting editors include former Presiding Bishop Frank Griswold, Cynthia Kitteridge, Mark Oakley (Canon Chancellor, St. Paul's Cathedral, London) • Volume 1 covers Advent to Ascension, Volume 2 Pentecost to end of Church Year The great themes of faith are also the great themes of literature and the arts. As we come to terms with God, hope, faith, tragedy, guilt, fear, and love, so the poets, writers, musicians, and artists pick up the same themes, and their understanding can enrich and deepen our own. Words That Listen brings these two worlds together. For each gospel, Markham and Hawkins offer four connecting resource suggestions—e.g., a poem, extract from a novel, a film/television/sporting illustration, and/or a humorous story—to illuminate, make connections, and spark new ways of looking at familiar stories. The suggestions for each Sunday include a brief summary and explanation of the extracts.

**Modbury Tales** Dec 21 2021 'Modbury Tales' incorporates twelve short stories, one poem, impressions of a summer in South Devon and photographs that replace a thousand words. Over the years I have steadily built up a stock of short stories written in New Zealand and England that I have never widely shared nor previously published. I believe that this is the right time to do so. South Devon is an outstandingly beautiful area of England that encompasses Salcombe, Dartmouth, a rugged and dramatic coastline and the margins of Dartmoor. The narrow lanes never cease to amaze because they are virtually impossible to navigate and yet hidden away people live on a permanent basis, like the lost tribes of the Amazonian rainforest. Elsewhere in the country the very wealthy buy large estates so that they can be far away from other people but here in Devon nobody could ever find you even if they tried, including close friends. As was the case with my previous 'Random Journeys: New Zealand' travelogue 'Modbury Tales' is not intended to be a guide book. It is simply the first and fleeting impressions recorded by an individual that hopefully might resonate with others visiting the same locations at a different time.

*The Railway Goods Shed and Warehouse in England* May 14 2021 Although goods traffic accounted in many cases for a higher proportion of railway companies' revenue than passengers, the buildings associated with it have received very little attention in comparison to their passenger counterparts. They once played as important a role in distribution as the 'big sheds' near motorway junctions do today. The book shows how the basic design of goods sheds evolved early in the history of railways, and how the form of goods sheds reflected the function they performed.

Although goods sheds largely functioned in the same way, there was considerable scope for variety of architectural expression in their external design. The book brings out how they varied considerably in size from small timber huts to the massive warehouses seen in major cities. It also looks at how many railway companies developed standard designs for these buildings towards

the end of the 19th century and at how traditional materials such as timber, brick and stone gave way to steel and concrete in the 20th This building type is subject to a high level of threat with development pressure in urban and suburban areas for both car parking and housing having already accounted for the demise of many of these buildings. Despite this, some 600 have been identified as still extant and the book will, for the first time, provide a comprehensive gazetteer of the surviving examples.
