A Land Remembered Apr 15 2021 An elementary school teacher's manual for using *A Land Remembered* to teach language arts, social studies, and science coordinated with the Sunshine State Standards of the Florida Department of Education. In this best-selling novel, Patrick Smith tells the story of three generations of the MacIveys, a Florida family who battle the hardships of the frontier to rise from a dirt-poor Cracker life to the wealth and standing of real estate tycoons. The story opens in 1858, when Tobias MacIvey arrives in the Florida wilderness to start a new life with his wife and infant son, and ends two generations later in 1968 with Solomon MacIvey, who realizes that the land has been exploited far beyond human need. The sweeping story that emerges is a rich, rugged Florida history featuring a memorable cast of crusty, indomitable Crackers battling wild animals, rustlers, Confederate deserters, mosquitoes, starvation, hurricanes, and freezes to carve a kingdom out of the swamp. But their most formidable adversary turns out to be greed, including finally their own. Love and tenderness are here too: the hopes and passions of each new generation, friendships with the persecuted blacks and Indians, and respect for the land and its wildlife. Patrick Smith's novel is now available for young readers. Middle School teacher's manual See all of the books in this series

We Are the Land Aug 20 2021 *We Are The Land* is an exploration of Ireland--its ancient history, DNA, and culture through the adventurous search of four sisters for their Irish ancestry. The author's interest in how ancient languages evolved and migrated leads readers through the heart of Ireland to the modern revolution of the ancestral DNA of the Irish people. The author investigates the parallels between mythology, anthropology, DNA, and climate to lead the reader to a broader understanding of Ireland, its

people, and the western world. This is a must read for travelers to Ireland who want to know...Who are the Celts? Who are the Scotch-Irish or Ulster Scots? Where did red hair come from? What was the land like at the dawn of modern humans? What were the origins of Irish hospitality, music, and scintillating wit? Who built the megaliths such as Newgrange, Knowth, and Dowth? What was the "potato famine"? The book explores these and other questions for those of us with Irish heritage, and others, who wish to understand before we visit Ireland.

All the Land Feb 23 2022 How, in 1930, did Alfred Wegener, the son of minister from Berlin, find himself in the most isolated spot on earth, attempting to survive an unthinkable cold winter in the middle of Greenland? In *All the Land*, Jo Lendle sets out to chronicle Wegener's extraordinary journey from his childhood in Germany to the most unforgiving corner of the planet. As Lendle shows, Wegener's life was anything but ordinary. Surrounded by children at the orphanage his parents ran, Wegener was driven by his scientific spirit in search not only of answers to big questions, but of solitude. Though Wegener's life ended in tragedy during his long winter in Greenland, he left us with a scientific legacy: the theory of continental drift, mocked by his peers and only recognized decades after his death. Lendle gives us the story of this great adventurer, of the experiences that shaped him, resulting in a tale that is both thrilling and tender.

How to Land a Plane Jul 27 2019 Take a seat—the captain's seat, that is—and relax. You're about to land a Boeing 747. "Brilliant." —The Sunday Times A Daily Mail and Spectator Best Book of the Year A Points Guy Best Book of the Year The mystery of flight is magical; the reality even more so—from the physics that keeps a 450-ton vehicle aloft, to the symphony of technology and teamwork that safely sets it down again. Take it from Mark Vanhoenacker—British Airways pilot, international bestselling author, and your new flight instructor. This is *How to Land a Plane*. Vanhoenacker covers every step—from approach to touchdown—with precision, wit, and infectious enthusiasm. Aided by dozens of illustrations, you'll learn all the tools and rules of his craft: altimeters, glidepaths, alignment, and more. Before you know it, you'll be on the ground, exiting the aircraft with a whole new appreciation for the art and science of flying. "A good choice for anyone who's fantasized about suddenly having to get an aircraft safely down on the ground . . . walks you through some of the basics of flight and landing, from how to recognize a cluster of instruments known as the 'six pack' to knowing what purpose the PAPI lights near the runway serve." —Popular Science "A work of humorous and outright poetic travel geekery." —National Geographic Traveler

Farm + Land's Back to the Land Jun 17 2021 A spectacular treehouse suspended above a lush forest. A cozy cabin perched on a mountainside. A small farm growing heirloom vegetables in the high desert. These are the extraordinary stories of the modern-day back-to-the-land-movement, a movement that embraces slow living, sustainability, and the value of doing things with your own two hands. Here are remarkable narratives, essential how-tos, and hundreds of breathtaking photographs from people who have embraced lives of adventure in wild places. Delivered in a handsome volume that inspires feelings of wanderlust, this book is a must-have for outdoor enthusiasts and anyone who has ever dreamed of escaping to a simpler way of life.

The Land of the Book May 29 2022 Scotland - a land where hill and glen meet surging seas; where ancient and modern stand side-by-side; and the birth place and home of many beloved Christian authors, preachers and speakers. Known affectionately as 'the land of the Book', Scotland's rich Christian heritage is evident in the volume of writings sent out from this small country to the world. The words of Robert Murray McCheyne, John Knox, Horatius Bonar and many others grace the pages of this book. This year of quotes highlights the authors' firm grasp of divine truth, deep experience of the power of godliness and sensitivity of conscience. They all shine through their sayings with great clarity; these are as relevant today as when they were first penned. May the God of our Scottish Christian fathers bless you as you ponder their wisdom, turn it into prayer, and seek grace to live in its light. It is the light of Christ.

Fear Stalks the Land! Nov 03 2022 In which the writings of the authors Thom Yorke and Stanley Donwood are gathered together. This commonplace book includes faxes, notes, fledgling lyrics, sketches, lists of all kinds and scribbles towards nirvana, as were sent between the two authors during the period 1999 to 2000 during the creation of the Radiohead albums *Kid A* and *Amnesiac*. This is a document of the creative

process and a mirror to the fears, portents and fantasies invoked by the world as its citizens faced a brave new millennium.

Kid A Mnesia Mar 27 2022 Whilst these records were being conceived, rehearsed, recorded and produced, Thom Yorke and Stanley Donwood made hundreds of images. These ranged from obsessive, insomniac scrawls in biro to six-foot-square painted canvases, from scissors-and-glue collages to immense digital landscapes. They utilised every medium they could find, from sticks and knives to the emerging digital technologies. The work chronicles their obsessions at the time: minotaurs, genocide, maps, globalisation, monsters, pylons, dams, volcanoes, locusts, lightning, helicopters, Hiroshima, show homes and ring roads. What emerges is a deeply strange portrait of the years at the commencement of this century. A time that seems an age ago - but so much remains the same.

Defending the Land of the Jaguar Jul 07 2020 Mexican conservationists have sometimes observed that it is difficult to find a country less interested in the conservation of its natural resources than is Mexico. Yet, despite a long history dedicated to the pursuit of development regardless of its environmental consequences, Mexico has an equally long, though much less developed and appreciated, tradition of environmental conservation. Lane Simonian here offers the first panoramic history of conservation in Mexico from pre-contact times to the current Mexican environmental movement. He explores the origins of conservation and environmental concerns in Mexico, the philosophies and endeavors of Mexican conservationists, and the enactment of important conservation laws and programs. This heretofore untold story, drawn from interviews with leading Mexican conservationists as well as archival research, will be important reading throughout the international community of activists, researchers, and concerned citizens interested in the intertwined issues of conservation and development.

The Land is the Source of the Law Apr 27 2022 *The Land is the Source of Law* brings an inter-jurisdictional dimension to the field of indigenous jurisprudence: comparing Indigenous legal regimes in New Zealand, the USA and Australia, it offers a 'dialogical encounter with an Indigenous jurisprudence' in which individuals are characterised by their rights and responsibilities into the Land. Though a relatively "new" field, indigenous jurisprudence is the product of the oldest continuous legal system in the world. Utilising a range of texts – films, novels, poetry, as well as "law stories" CF Black blends legality and narrative in order to redefine jurisprudencia in indigenous terms. This re-definition gives shape to the jurisprudential framework of the book: a shape that is not just abstract, but physical and metaphysical; a shape that is circular and concentric at the same time. The outer circle is the cosmology, so that the human never forgets that they are inside a universe – a universe that has a law. This law is found in the second circle which, whilst resembling the ancient Greek law of physis is a law based on relationship. This is a relationship that orders the placing of the individual in the innermost circle, and which structures their rights and responsibilities into the land. The jurisprudential texts which inform the theoretical framework of this book bring to our attention the urgent message that the Djang (primordial energy) is out of balance, and that the rebalancing of that Djang is up to the individual through their lawful behaviour, a behaviour which patterns them back into land. Thus, *The Land is the Source of the Law* concludes not only with a diagnosis of the cause of climate change, but a prescription which offers an alternative legal approach to global health.

The Land of Stone Flowers Aug 27 2019 Classic fairytales get a refreshing satirical twist in this collection of illustrated stories in which gnomes, pixies, and other fairy folk share tall tales of the strange and unbelievable human world and its inhabitants. Brimming with keen observations and wild assumptions on human anatomy, customs, languages, rituals, dwellings, and more, *The Land of Stone Flowers* is as absurd as it is astounding, examining contradictory and nonsensical human behaviors through the lens of the fantastic: from the bewitching paper wizards who live in humans' wallets to their invisible hats, known as moods," which cloud their view of the world. Bursting with intricate and evocative illustrations, *The Land of Stone Flowers* will draw readers into a world of fantasy and fable that slyly reveals many hidden truths about human existence."

The Lore of the Land Oct 02 2022 Where can you find the 'Devil's footprints'? What happened at the 'hangman's stone'? Did Sweeney Todd, the demon barber of Fleet Street, ever really exist? Where was King Arthur laid to rest? Bringing together tales of hauntings, highwaymen, family curses and lovers' leaps, this magnificent guide will take you on a magical journey through England's legendary past.

The Lies of the Land Jun 25 2019 Trust in our politicians is at an all-time low. We're in a "post-truth" era, where feelings trump facts, and where brazen rhetoric beats honesty. But do politicians lie more than they used to? And do we even want them to tell the truth? In a history full of wit and political acumen, Private Eye journalist Adam Macqueen dissects the gripping stories of the biggest political lies of the last half century, from the Profumo affair to Blair's WMDs to Boris Johnson's £350 million for the NHS. Covering lesser known whoppers, infamous lies from foreign shores ("I did not have sexual relations with that woman"), and some of the resolute untruths from Donald Trump's explosive presidential campaign, this is the quintessential guide to dishonesty from our leaders - and the often pernicious relationship between parliament and the media. But this book is also so much more. It explains how in the space of a lifetime we have gone from the implicit assumption that our rulers have our best interests at heart, to assuming the worst even when - in the majority of cases - politicians are actually doing their best.

The Lay of the Land Jun 29 2022 A spiritually uplifting and beautiful designed visual memoir by the hugely popular photographer on Instagram, Joe Greer, combining thoughtful essays and more than 100 gorgeous landscape photos—half fan favorites, and half never-before-seen. “Each photograph really does come down to a split second when you decide to freeze that moment in time. . . . You ask yourself what the story is that you want to tell, and let the rest unfold: Click.”—from the introduction Joe Greer never imagined he would become a photographer. Raised in Florida by an aunt and uncle after his mother's death when he was four, Joe had a seemingly normal childhood, spending summers at church camp and dreaming of going to college. But nearly fifteen years later, the ground shifted beneath his feet when he discovered a family secret that would impact the rest of his life. Trying to make sense of that revelation and what it meant for his future, Greer set his sights on becoming a pastor at Spokane's Moody Bible Institute. There, he discovered Instagram—and a passion for photography. His pictures of the lush, wild beauty of the Pacific Northwest landscape attracted a large following that has grown to more than three quarters of a millions fans and continues to expand. The Lay of the Land is Joe's story in words and pictures. In this stunning compendium, he reflects on the trauma of his early life and what photography has taught him: how to find his light; how to slow down; how to appreciate the world around him, a reverence for the nature world that that both nurtures and amplifies his creativity and faith; how to love—his photography led him to his wife, Madison—and how to heal. For Joe, photography has been a way to find purpose, better understand his faith, and express himself. Though he began with landscapes, meeting his wife sparked a new love of portraiture, and he turned to making photos of street scenes that explored his complicated feelings about family. A love letter to the natural world, to faith, and to finding your calling in the most unexpected places, The Lay of the Land is a window into the beautiful mind and heart of one of the internet's favorite photographers. Moving and inspiring, it is a creative and spiritual journey that offers lessons on life and living. As Greer reminds us all, whatever it is you want, it's up to you to make the moment (and the photograph).

Surviving and Thriving on the Land Oct 29 2019 It's a dream come true when you finally get a piece of land or join an eco-community and start to plan your sustainable land-based enterprise. But all too often the dream is spoiled by lack of money, stress, exhaustion, and poor time management, and your work and future plans can dissolve into discord, illness, and poverty. Smallholdings provide food, home, fuel, and employment for those who run them and local, seasonal, often organic and ethical food and timber for an expanding market. *Surviving and Thriving on the Land* looks at ways in which projects can be designed that care for the people involved in them as well as the earth that they are trying to protect. If land-based ecological projects are to offer a realistic solution to the problems we face in the twenty-first century, it is imperative that they be sustainable in terms of human energy. This book offers a framework, backed up by

real-life examples, of issues to consider when setting up a new project or for overcoming human-energy-based problems in existing projects.

To Possess the Land May 17 2021 Ambitious and only 24 years old, Arthur Manby arrived from England in the Territory of New Mexico in 1883, and saw in its wilderness an empire that he believed himself destined to rule. For his kingdom, he chose a vast Spanish land grant near Taos, a wild 100,000 acres whose ancient title was beyond question. Obsessed, he poured more than 20 years into his dream of glory, and schemed, stole, lied, cajoled, begged, and bribed to take the vast grant from its rightful owners. With great mastery, Waters draws us into this obsession, and the intense drama of these years is at once psychological and historical. In May 1913, Manby came at last to possess the grant, but within three years it had slipped again from his grasp. The story does not end there, and perhaps only Frank Waters could have portrayed the strange disintegration of Manby's personality as he aged, his frantic but ingenious efforts to regain "his" land. Among these was the creation of a secret society which terrorized whole towns and villages, becoming so powerful that even Manby no longer knew all its members and workings. At the same time he turned deeper inward, locked and bolted his gates against the outside world which hated and feared him more than ever. On July 3, 1929, a swollen, headless body was discovered in Manby's Taos home. Some said it was murder; others swore the body was not Manby's; still others reported seeing him alive afterward. The story blazed into national headlines and an official inquiry followed. Step by step, Waters takes us into the web of strange clues, evidence, more murders and complications--an investigation which the New Mexican government inexplicably called to a halt. The case remains the West's greatest unsolved mystery.

Children of the Land Oct 22 2021 This unforgettable memoir from a prize-winning poet about growing up undocumented in the United States recounts the sorrows and joys of a family torn apart by draconian policies and chronicles one young man's attempt to build a future in a nation that denies his existence. "You were not a ghost even though an entire country was scared of you. No one in this story was a ghost. This was not a story." When Marcelo Hernandez Castillo was five years old and his family was preparing to cross the border between Mexico and the United States, he suffered temporary, stress-induced blindness. Castillo regained his vision, but quickly understood that he had to move into a threshold of invisibility before settling in California with his parents and siblings. Thus began a new life of hiding in plain sight and of paying extraordinarily careful attention at all times for fear of being truly seen. Before Castillo was one of the most celebrated poets of a generation, he was a boy who perfected his English in the hopes that he might never seem extraordinary. With beauty, grace, and honesty, Castillo recounts his and his family's encounters with a system that treats them as criminals for seeking safe, ordinary lives. He writes of the Sunday afternoon when he opened the door to an ICE officer who had one hand on his holster, of the hours he spent making a fake social security card so that he could work to support his family, of his father's deportation and the decade that he spent waiting to return to his wife and children only to be denied reentry, and of his mother's heartbreaking decision to leave her children and grandchildren so that she could be reunited with her estranged husband and retire from a life of hard labor. *Children of the Land* distills the trauma of displacement, illuminates the human lives behind the headlines and serves as a stunning meditation on what it means to be a man and a citizen.

***Dwellers in the Land* Mar 15 2021** Imagine a world structured around ecological and cultural diversity, rather than national and political parameters. In response to present and impending ecological and economic crises, Kirkpatrick Sale offers a definitive introduction to the unique concept of bioregionalism, an alternative way of organizing society to create smaller scale, more ecologically sound, individually responsive communities with renewable economies and cultures. He emphasizes, among many other factors, the concept of regionalism through natural population division, settlement near and stewardship of watershed areas, and the importance of communal ownership of and responsibility for the land. *Dwellers in the Land* focuses on the realistic development of these bioregionally focused communities and the places where they are established to create a society that is both ecologically sustainable and satisfying to its inhabitants.

***Owning the Earth* Jan 31 2020** Barely two centuries ago, most of the world's productive land still belonged either communally to traditional societies or to the higher powers of monarch or church. But that pattern, and the ways of life that went with it, were consigned to history as a result of the most creative - and, at the same time, destructive - cultural force in the modern era: the idea of individual, exclusive ownership of land. This notion laid waste to traditional communal civilisations, displacing entire peoples from their homelands, and brought into being a unique concept of individual freedom and a distinct form of representative government and democratic institutions. Other great civilizations, in Russia, China, and the Islamic world, evolved very different structures of land ownership, and thus very different forms of government and social responsibility. The seventeenth-century English surveyor William Petty was the first man to recognise the connection between private property and free-market capitalism; the American radical Wolf Ladejinsky redistributed land in Japan, Taiwan and South Korea after the Second World War to make possible the emergence of Asian tiger economies. Through the eyes of these remarkable individuals and many more, including Chinese emperors and German peasants, Andro Linklater here presents the evolution of land ownership to offer a radically new view of mankind's place on the planet.

***The Fat of the Land* Jul 31 2022** A seminal book, reissued after almost 50 years, offering a personal vision of a less-mechanized and less polluting world.

***The Lie of the Land* Sep 01 2022** A GUARDIAN, OBSERVER, TELEGRAPH, NEW STATESMAN, EVENING STANDARD, SUNDAY TIMES AND IRISH TIMES BOOK OF THE YEAR. 'A very good read indeed' Matt Haig 'Terrific, page-turning, slyly funny' India Knight 'As satisfying a novel as I have read in years' Sarah Perry Quentin and Lottie Bredin, like many modern couples, can't afford to divorce. Having lost their jobs in the recession, they can't afford to go on living in London; instead, they must downsize and move their three children to a house in a remote part of Devon. Arrogant and adulterous, Quentin can't understand why Lottie is so angry; devastated and humiliated, Lottie feels herself to have been intolerably wounded. Mud, mice and quarrels are one thing - but why is their rent so low? What is the mystery surrounding their unappealing new home? The beauty of the landscape is ravishing, yet it conceals a dark side involving poverty, revenge, abuse and violence which will rise up to threaten them. Sally Verity, happily married but unhappily childless knows a different side to country life, as both a Health Visitor and a sheep farmer's wife; and when Lottie's innocent teenage son Xan gets a zero-hours contract at a local pie factory, he sees yet another. At the end of their year, the lives of all will be changed for ever. A suspenseful black comedy, this is a rich, compassionate and enthralling novel in its depiction of the English countryside, and the potentially lethal interplay between money and marriage.

Hands on the Land May 05 2020 A lavishly illustrated study of the natural and cultural history of the Vermont landscape. In this book Jan Albers examines the history—natural, environmental, social, and ultimately human—of one of America's most cherished landscapes: Vermont. Albers shows how Vermont has come to stand for the ideal of unspoiled rural community, examining both the basis of the state's pastoral image and the equally real toll taken by the pressure of human hands on the land. She begins with the relatively light touch of Vermont's Native Americans, then shows how European settlers—armed with a conviction that their claim to the land was "a God-given right"—shaped the landscape both to meet economic needs and to satisfy philosophical beliefs. The often turbulent result: a conflict between practical requirements and romantic ideals that has persisted to this day. Making lively use of contemporary accounts, advertisements, maps, landscape paintings, and vintage photographs, Albers delves into the stories and personalities behind the development of a succession of Vermont landscapes. She observes the growth of communities from tiny settlements to picturesque villages to bustling cities; traces the development of agriculture, forestry, mining, industry, and the influence of burgeoning technology; and proceeds to the growth of environmental consciousness, aided by both private initiative and governmental regulation. She reveals how as community strengthens, so does responsible stewardship of the land. Albers shows that like any landscape, the Vermont landscape reflects the human decisions that have been made about it—and that the more a community understands about how such decisions have been made, the better will be its future decisions.

True to the Land Mar 03 2020 Spanning 65,000 years, this book provides a history of food in Australia from its beginnings, with the arrival of the first peoples and their stewardship of the land, to a present where the production and consumption of food is fraught with anxieties and competing priorities. It describes how food production in Australia is subject to the constraints of climate, water, and soil, leading

to centuries of unsustainable agricultural practices post-colonization. Australian food history is also the story of its xenophobia and the immigration policies pursued, which continue to undermine the image of Australia as a model multicultural society. This history of Australian food ends on a positive note, however, as Indigenous peoples take increasing control of how their food is interpreted and marketed.

A Land Feb 11 2021

The Color of the Land Apr 03 2020 The Color of the Land brings the histories of Creek Indians, African Americans, and whites in Oklahoma together into one story that explores the way races and nations were made and remade in conflicts over who would own land, who would farm it, and who would rule it. This story disrupts expected narratives of the American past, revealing how identities--race, nation, and class--took new forms in struggles over the creation of different systems of property. Conflicts were unleashed by a series of sweeping changes: the forced "removal" of the Creeks from their homeland to Oklahoma in the 1830s, the transformation of the Creeks' enslaved black population into landed black Creek citizens after the Civil War, the imposition of statehood and private landownership at the turn of the twentieth century, and the entrenchment of a sharecropping economy and white supremacy in the following decades. In struggles over land, wealth, and power, Oklahomans actively defined and redefined what it meant to be Native American, African American, or white. By telling this story, David Chang contributes to the history of racial construction and nationalism as well as to southern, western, and Native American history.

The Land Beyond Dec 24 2021 Shortlisted for the Adventure Travel Book of the Year at the Edward Stanford Travel Writing Awards. There are many reasons why it might seem unwise to walk, mostly alone, through the Middle East. That, in part, is exactly why Leon McCarron did it. From Jerusalem, McCarron followed a series of wild hiking trails that trace ancient trading and pilgrimage routes and traverse some of the most contested landscapes in the world. In the West Bank, he met families struggling to lead normal lives amidst political turmoil and had a surreal encounter with the world's oldest and smallest religious sect. In Jordan, he visited the ruins of Hellenic citadels and trekked through the legendary Wadi Rum. His journey culminated in the vast deserts of the Sinai, home to Bedouin tribes and haunted by the ghosts of Biblical history. The Land Beyond is a journey through time, from the quagmire of current geopolitics to the original ideals of the faithful, through the layers of history, culture and religion that have shaped the Holy Land. But at its heart, it is the story of people, not politics and of the connections that can bridge seemingly insurmountable barriers.

In the Land of Pain Nov 10 2020 A "startling [and] splendid" book (The New York Times Book Review) from one of the greatest writers of the nineteenth century on his years of enduring severe illness—a classic in the literary annals of human suffering. • Edited and translated by the bestselling, Booker Prize winning author of *The Sense of an Ending*. "Pain, you must be everything for me. Let me find in you all those

foreign lands you will not let me visit.” —Alphonse Daudet Daudet (1840–1897) was a greatly admired writer during his lifetime, praised by Dickens and Henry James. In the prime of his life, he developed an agonizing nerve disease caused by syphilis and began taking notes about his experience, published posthumously as *In the Land of Pain*. Daudet wrote in powerful, unflinching images about his excruciating symptoms, his fears, his desperate attempts at treatment, and the effects of the morphine he came to depend on. His novelist’s eye and sense of humor did not desert him as he observed the bizarre society of his fellow patients at curative spas, nor did his generosity and compassion for them and for his friends and family. In Julian Barnes’s crystalline translation, Daudet’s notes comprise a record—at once shattering, haunting, and beguiling—of both the banal and the transformative realities of physical suffering.
