The Book of Change Nov 10 2020 A brilliant awakening to our vast shared potential and creative energy for change, from the beloved social media curator Stephen Elcock. Featuring 240 reproductions of art, photography and objects, selected from centuries through history and across the globe, as well as from living artists such as Zanele Muholi, Kara Walker, Carrie Mae Weems, Ed Kienemann, Gallagher, Shirin Neshat and Gillian Wearing, this is an extraordinary collection of powerfully inspiring imagery on the nature of challenge and change. 'Perfect for our time.' Adrian Searle, Guardian 'In compiling The Book of Change my aim was to combine fragments of the visual culture of the past - drawing upon as many different traditions, geographical locations and eras as possible with work by contemporary artists and photographers and illustrators, extracting inspiration from the raw material of the world to create a unique patchwork that attempts to reimagine existence. 'By reassembling, repurposing and repositioning fragments of the past and combining them with new visions and fresh ways of seeing, a collage of unfamiliar, unspoiled possibilities can emerge, exorcizing the ghosts of struggles, failures and traumas past, providing glimpses of a better world, of overgrown paths in the clearing, of potential routes out of crisis into a brighter, bolder future.' 'Itinerant image-scavenging art-fugitive Stephen Elcock returns with a new book revealing that beneath his acerbic, feral and rarefied exterior lies a large, kind and generous heart. 'When you get right down to it, in life and art, love is the message, and The Book of Change brings forth the codes, keys and surrealist visions leading to brighter days.' Simon Armstrong, Tate Modern 'Stephen Elcock brightens our dark world.' Kara Walker, artforum.com Opera picta. La cosmica unità. Ediz. illustrata Jul 03 2022

Economy of the Unlost Nov 30 2019 The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Roman poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commerce while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that the need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away what is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

Skullture Jul 07 2020 Simultaneously frightening and familiar, the image of the skull is the closest thing human civilization has seen to a universal aesthetic totem. Although the power of its iconic form originates from its association with death, it has come to represent so much more. Skullture takes a comprehensive approach while examining this phenomenon, taking into account both the visual and conceptual considerations of the skull throughout history. The book explores the connections of Aztec religious iconography to Damien Hirst and the Ramones to Eighteenth Century funerary practices without ever losing sight of the fact that while fashion changes, the visual staying power of the human skull carries on. Skullture presents different aesthetic uses of the skull as well as its various cultural resonances through myriad disciplines of art design and fashion. The list of more than 70 contributors includes; Emilio Garcia, Lucy Hardie, Haroshi, Dionne Marshall, Alexandre Orion, Jim Skull, Ian Strange, Didier Ra, Vhils and Yohji Yamamoto.

Lingua Cosmica Sep 08 2020 Anthologies, awards, journals, and works in translation have sprung up to reflect science fiction in an increasingly international scope. Yet scholars and students alike face a problem. Where does one begin to explore global SF in the absence of an established canon? Lingua Cosmica opens the door to some of the creators in the vanguard of international science fiction. Eleven experts offer innovative English-language scholarship on figures ranging from Cuban pioneer Daína Chaviano to Nigerian filmmaker Olatunde Osunsanmi to the Hugo Award-winning Chinese writer Liu Cixin. These essays invite readers to ponder the themes, formal elements, and unique cultural characteristics within the works of these irreplaceable—if too-little-known—artists. Dale Knickerbocker includes fantasists and genre-benders pushing SF along new evolutionary paths even as they draw on the traditions of their own literary cultures. Includes essays on Daina Chaviano (Cuba), Jacek Dukaj (Poland), Jean-Claude Dunyac (France), Andreas Eschbach (Germany), Angélica Gorodischer (Argentina), Sakyo Komatsu (Japan), Liu Cixin (China), Laurent McAllister (Yves Meynard and Jean-Louis Trudel, Francophone Canada), Olatunde Osunsanmi (Nigeria), Johanna Sinisalo (Finland), and Arkady and Boris Strugatsky (Russia). Contributors: Alexis Brooks de Vita, Pawel Freluk, Yvonne Howell, Yolanda Molina-Gavilán, Vibeke Rützou Petersen, Amy J. Ransom, Hanna-Riikka Roine, Hanna Samola, Mingwei Song, Tatsumi Takayuki, Juan Carlos Toledano Redondo, and Natacha Vas-Deyres.

Frida Kahlo Aug 27 2019 \* Analyzes the art of Frida Kahlo and incorporates the most up-to-date research available on the work of the artist\* Published to accompany an exhibition at the MUDEC in Milan, from February to June 2018 Frida Kahlo, a truly extraordinary woman who captured the public's imagination with her iconic look, troubled life and exotic air, is first and foremost a great painter. This exhibition and accompanying catalogue aim to free her work from the haze of myth and the frustrating details of private life in order to grant her the position she deserves within the history of art. Oil paintings, drawings, watercolors, and photographs explore the complex historical and cultural context of Kahlo's work, examining its explicit realism as well as its disturbing ambiguity, its dramatic content as well as its irony, and not least, the exuberant sensuality of her still lifes. Organized around a theme in several large chapters, the catalogue analyses the art of Frida Kahlo, revealing its uncompromising political nature, her audacious use of the body, macabre, violent aesthetic, and symbolic and symbiotic interaction with the natural environment in Mexico in the early 1900s. The catalogue represents the most up-to-date text available on the work of one of the most celebrated and beloved artists of all time.

The Universe Before the Big Bang Aug 22 2021 Terms such as "expanding Universe", "big bang", and "initial singularity", are nowadays part of our common language. The idea that the Universe we observe today originated from an enormous explosion (the big bang) is now well known and widely accepted, at all levels, in modern popular culture. But what happens to the Universe before the big bang? And would it make any sense at all to ask such a question? In fact, recent progress in theoretical physics, and in particular in String Theory, suggests answers to the above questions, providing us with mathematical tools able in principle to reconstruct the history of the Universe even for times before the big bang. In the emerging cosmological scenario the Universe at the epoch of the big bang, instead of being a "new born baby" was actually a rather "aged" creature in the middle of its possibly infinitely enduring evolution. The aim of this book is to convey this picture in non-technical language accessible also to non-specialists. The author, himself a leading cosmologist, draws attention to ongoing and future observations that might reveal an era before the big bang.

Fiori di pietra. Donne artiste. La magica avventura di Franca Frittelli una «scultrice» contemporanea. Apr 27 2022  
"Dietro una grande artista c'è un'intensa vicenda umana. Nel caso di Franca Frittelli ciò è talmente vero al punto di rendere impossibile stabilire quali delle due storie prevalga sull'altra. Entrambe sono toccanti, lasciano tracce indelebili nella mente, destano profonde emozioni. Come una costellazione il libro traduce vari punti luminosi della sua vita in una geografia cosmica umana e artistica di sicuro interesse. Armata solo dal taglio delle sue idee e del suo grande talento artistico, Franca Frittelli si è trovata stessa e il mondo in una continua ricerca dell'armonia e del bello."

The Epic of Gilgamesh Dec 12 2020 Gilgamesh, King of Uruk, and his companion Enkidu are the only heroes to have survived from the ancient literature of Babylon, immortalized in this epic poem that dates back to the 3rd millennium BC. Together they journey to the Spring of Youth, defeat the Bull of Heaven and slay the monster Humbaba. When Enkidu dies, Gilgamesh's grief and fear of death are such that they lead him to undertake a quest for eternal life. A timeless tale of morality, tragedy and adventure, *The Epic of Gilgamesh* is a landmark literary exploration of man's search for immortality.

A Heart Full of Peace Jul 27 2019 Love, compassion, and peace - these words are at the heart of all spiritual endeavors. Although we intuitively resonate with their meaning and value, for most of us, the challenge is how to embody what we know; how to transform these words into a vibrant, living practice. In these times of conflict and uncertainty, this transformation is far more than an abstract ideal; it is an urgent necessity. Peace in the world begins with us. This wonderfully appealing offering from the most trusted elders of Buddhism in the West is a warm and engaging exploration of the ways we can cultivate and manifest peace as wise and skillful action in the world. This charming book is illuminated throughout with lively, joyous, and sometimes even funny citations from a host of contemporary and ancient sources - from the poetry of W.S. Merwin and Galway Kinnell to the haiku of Issa and the great poet-monk Ryokan, from the luminous aspirations of Saint Francis of Assisi to the sage advice of Thich Nhat Hanh and the Dalai Lama.

A Visual Protest Jun 05 2020 This major new book on the art of Banksy spans the entire career of the world's most famous anonymous street artist. Decades before he blew the lid off the high-stakes art world by shredding a work immediately following purchase at an auction, Banksy was committing acts of artistic protest on the streets, walls, and bridges of cities throughout the world. We still don't know who Banksy is, but thanks to this book we have a greater sense of how he works. This book features approximately eighty works from the start of his street art career to today, most photographed in situ and presented in vibrant illustrations. This book guides readers through Banksy's artistic processes and explains his influences, such as the Situationist movement and the May 1968 uprising in Paris. It delves into key works such as *Love Is in the Air*, a stenciled graffiti that subverts the idea of violent protest; *Flag*, in which the iconic American photograph at Iwo Jima is altered to reflect a group of Harlem children atop a burnt-out car; and the slyly titled *Turf War*, in which Winston Churchill sports a grassy Mohawk. The book also pays tribute to Banksy's rats, a reviled symbol of urban decay that the artist reimagines as rappers, violin players, and painters. Banksy continues to challenge the political, economic, and racial oppression that takes place every day in cities around the world; this book offers a timely appreciation of just how the artist has embedded himself into the psyche of the powerful as well as the voiceless--without ever revealing his own identity.

Great Maps Nov 22 2021 Great Maps takes a close look at the history of maps, from ancient maps such as medieval mappae mundi to Google Earth. Why do we put north at the top of maps? Which maps show us the way to Heaven, and which show the "land of no sunshine" or the land of "people with no bowels"? In Great Maps, author and historian Jerry Brotton tells the hidden story behind more than 60 of the most significant maps from around the world, picking out key features, stories, and techniques. With visual detail to reveal the inner meaning buried within the landscape. Maps are not just geographical data: they reflect a particular ideological, historical, or cultural context. Providing a unique insight into how mapmakers have used maps to shape and depict their world view, this beautifully illustrated book traces the development of human development and culture through its maps. From the earliest rock carvings to the latest geospatial technology, from ancient medieval mappae mundi to the first road atlas, Great Maps explores in stunning photographic detail how maps have influenced and reflected our world throughout history.
