He joined the Czech Air force, rising to Captain by the age of 21. When he could no longer tolerate life under the Communists, he hijacked an airliner and flew across the Iron Curtain to freedom. He went to work for the CIA and was eventually sent to the US and given a job as Bill Boeing, Jr's personal pilot. When Boeing began racing Hydroplanes in the late 1950s, Mira was his driver. During his ten year career as a hydroplane driver, he won many races and two national championships. He met Presidents and dated movie starlets. After a serious hydroplane accident, Slovak switched to airplanes where he won another national championship. When he retired from racing he became a stunt pilot and public speaker and talked about the value of freedom and how we should value it above everything else. The Sweetness of Freedom Feb 21 2022 *The Sweetness of Freedom* presents an eclectic grouping of late nineteenth- and twentieth-century immigrants' narratives and the personal artifacts, historical documents, and photographs these travelers brought on their journeys to Michigan. Most of the oral histories in this volume are based on interviews conducted with the immigrants themselves. Some of the immigrants presented here hoped to gain better education and jobs.

Others—refugees—fled their homelands because of war, poverty, repression, religious persecution, or ethnic discrimination. All dreamt of freedom and opportunity. They tell why they left their homelands, why they chose to settle in Michigan, and what they brought or left behind. Some wanted to preserve their heritage, religious customs, traditions, and ethnic identity. Others wanted to forget past conflicts and lost family members. Their stories reveal how they established new lives far away from home, how they endured homesickness and separation, what they gave up and what they gained.

Curriculum and Teaching Dialogue Mar 10 2021 *Curriculum and Teaching Dialogue* is the journal of the American Association of Teaching and Curriculum (AATC). An important historical event in the development of organizations dealing with the scholarly field of teaching and curriculum was the founding of the AATC on October 1, 1993. The members of the AATC believed that the time was long overdue to recognize teaching and curriculum as a basic field of scholarly study, to constitute a national learned society for the scholarly field of teaching and curriculum (teaching is the more inclusive concept; curriculum is an integral part of teaching—the "what to teach" aspect). Since its founding AATC has produced scholarship in teaching and curriculum and serves the general public through its conferences, journals, and the interaction of its members. The purpose of the organization was originally defined in Article 1, Section 2 of the AATC Constitution: "To promote the scholarly study of teaching and curriculum; all analytical and interpretive approaches that are appropriate for the scholarly study of teaching and curriculum shall be encouraged." *Curriculum and Teaching Dialogue* seeks to fulfill that mission.

Freedom at Work Mar 22 2022 This book explores the freedom to use the language resources we have at our disposal to

learn to our fullest, to engage in inquiry about learning and teaching, and to go beyond the surface in topics of schooling and education. Within a particular school context, the author explores how these freedoms came into being, how they took shape, and what they meant for the individuals involved. She shows that the individual and social freedoms in which the teacher and the learner operate within schools are important measures and outcomes of intellectual development. In connecting language, culture, learning, and intellectual development as freedoms in her own life, the author explores a new way of seeing the role of multiple languages in education and the freedom to learn.

Black Ants and Buddhists Jan 28 2020 What would a classroom look like if understanding and respecting differences in race, culture, beliefs, and opinions were at its heart? Welcome to Mary Cowhey's Peace Class in Northampton, MA, where first and second graders view the entire curriculum through the framework of understanding the world, and trying to do their part to make it a better place. Woven through the book is Mary's unflinching and humorous account of her own roots in a struggling large Irish Catholic family and her early career as a community activist. Mary's teaching is infused with lessons of her heroes: Gandhi, Eleanor Roosevelt, Helen Keller, Martin Luther King, and others. Her students learn to make connections between their lives, the books they read, the community leaders they meet, and the larger world. If you were inspired to become a teacher because you wanted to change the world, and instead find yourself limited by teach-to-the-test pressures, this is the book that will make you think hard about how you spend your time with students. It offers no easy answers, just a wealth of insight into the challenges of helping students think critically about the world, and starting points for conversations about diversity and controversy in your classroom, as well as in the larger community.

After Freedom Oct 05 2020 Twenty years after the end of apartheid, a new generation is building a multiracial democracy in South Africa but remains mired in economic inequality and political conflict. The death of Nelson Mandela in 2013 arrived just short of the twentieth anniversary of South Africa's first free election, reminding the world of the promise he represented as the nation's first Black president. Despite significant progress since the early days of this new democracy, frustration is growing as inequalities that once divided the races now grow within them as well. In *After Freedom*, award-winning sociologist Katherine S. Newman and South African expert Ariane De Lannoy bring alive the voices of the "freedom generation," who came of age after the end of apartheid. Through the stories of seven ordinary individuals who will inherit the richest, and yet most unequal, country in Africa, Newman and De Lannoy explore how young South Africans, whether Black, White, mixed race, or immigrant, confront the lingering consequences of racial oppression. These intimate portraits illuminate the erosion of old loyalties, the eruption of class divides, and the heated debate over policies designed to redress the evils of apartheid. Even so, the freedom generation remains committed to a united South Africa and is struggling to find its way toward that vision.

Speaking of Freedom May 24 2022 Through the lens of more than forty speeches from his presidency, George H. W. Bush takes a special look back on the momentous global events of 1989-1992 -- the fall of the Berlin Wall, the collapse of the Soviet Union, and the liberation of Kuwait, to name a few -- and reminisces about what it was like to be president through such unprecedented times. Choosing from among the hundreds of speeches he gave while in office, former president Bush selects those that meant the most to him and introduces each one with candid comments recalling the circumstances and events leading up to it. "Although now in hindsight it seems that the end results were almost preordained, at the time no one knew what would happen next. Nothing was 'inevitable' at all. We learned quickly that words mattered," he writes in the opening pages of Speaking of Freedom. Selections throughout the book bring back the fascinating times of Lech Walesa, Mikhail Gorbachev, Václav Havel, and even Saddam Hussein -- when we watched as the idea of freedom seemed to spread all over the world. It was a stunning time in world history, and in these speeches the forty-first president observes it from his perspective as commander in chief, diplomat, politician, navy pilot, and grandfather. While many of the speeches deal with foreign affairs, others cover freedom's spread within the United States, including the signing of the landmark Americans with Disabilities Act and the historic Clean Air Act of 1990. President Bush's voice comes across perhaps most clearly when he is calling young people to lead a life of meaning and adventure that results only from serving others. Showcasing President Bush's usual charm, self-deprecating wit, and sharp perception, these speeches mark the moments -- large and small -- that defined his presidency. Through his words that motivated people all around the world to become involved in ideas that were bigger than themselves, George H. W. Bush shows us what it means to be "speaking of freedom."

Time, Freedom and the Self Nov 06 2020 While abundant research has investigated time use, much less attention has been given to the cultural meanings attached to free time and what these may express with regard to conceptions of freedom and the self. In an attempt to fill this gap, Michelle Shir-Wise examines not only what people do in their free time, but also how they perceive, interpret and experience it, and in what way it relates to notions of happiness, freedom and the ideal self. Time, Freedom and the Self draws on contemporary theoretical debates concerning the relation between discourse, cultural repertoires, subjective meaning and agency, as well as literature around the sociology of leisure, to inform a unique interpretation of free time ("disciplined freedom"), developed in the light of questionnaires and in-depth interviews with middle-class, middle-aged participants in suburban Israel.
