The Awakening in Wales Aug 22 2021 Watchman Nee called it the "greatest known revival in church history." On October 31, 1904, Evan Roberts, a twenty-six-year-old former miner, returned home from a ministry training program, having quit his job at the urging of the Holy Spirit. That night, he joined sixteen other young people at a village chapel, and from that humble origin sprang a spiritual revival that roared across the hills and valleys of Wales. Thousands of souls were welcomed into God's kingdom. Even the press could not ignore the changes occurring and eagerly reported on Roberts' every move. As suddenly as he had appeared, Roberts vanished from the world stage, only to reemerge twenty years later. What happened? How did God work so miraculously? Jessie Penn-Lewis was well-acquainted with the revival and with its leader, Evan Roberts. Her clear and concise history of the events of that time remains a treasure for all of us who pray for revival to return in our day

Castles in Wales Nov 24 2021 You may be a castle enthusiast on holiday or an armchair aficionado seeking the perfect introduction to Welsh castles. If so, here is the perfect solution: a combination of fireside companion and practical handbook for windswept walks. The introduction sweeps through medieval history, setting the castles in their historical, political and military context, while the main text is a practical guide to nearly 80 castles with grid reference and notes on access, history and building details. Fully illustrated, "Castles in Wales, A Handbook" also includes a list of over 400 medieval castles, and an appendix of possible, post-medieval and lost castles.

[Administrative Justice in Wales and Comparative Perspectives](#) Feb 13 2021 This book offers a unique understanding of what administrative justice means in Wales and for Wales, whilst also providing an expert and timely analysis of comparative developments in law and administration. It includes critical analysis of distinctly Welsh administrative laws and redress measures, whilst examining contemporary administrative justice issues across a range of common and civil law, European and international jurisdictions. Key issues include the roles of commissioners, administrative courts, tribunals and ombudsmen in devolved and federal nations, and evolving relationships between citizens and the state – especially in the context of localisation and austerity – and will be of interest to legal and public administration professionals at home and internationally.

The Arthur of the Welsh Aug 29 2019 This volume is unique in offering a comprehensive discussion of the subject. It will appeal widely to medievalists, to Welsh and Celtic scholars and to those non-specialists who have felt the fascination of the figure of Arthur and wish to know more. Little, if anything, is known historically of Arthur, yet for centuries the romances of Arthur and his court dominated the imaginative literature of Europe in many languages. The roots of this vast flowering of the Arthurian legend are to be found in early Welsh tradition and this volume gives an account of the Arthurian literature produced in Wales, in both Welsh and Latin, during the Middle Ages. The distinguished contributors offer a comprehensive view of recent scholarship relating to Arthurian literature in early Welsh and other Brythonic sources. The volume includes chapters on the "historical" Arthur, Arthur in early Welsh verse, the legend of Merlin, the tales of Culhwch ac Olwen, Geraint, Owain, Peredur, The Dream of Rhonabwy and Trystan ac Esyllt. Other chapters investigate the evidence for the growth of the Arthurian theme in the Triads and in the Historia Regum Britanniae of Geoffrey of Monmouth, and discuss the Breton connection and the gradual transmission of the legend to the non-Celtic world.

A History of Independent Television in Wales Sep 30 2019 Despite the growing body of work on the media in Wales, very little exists on the history of commercial television in Wales. This book seeks to address this imbalance by tracing the growth and development of ITV in Wales and assessing its contribution to the life of the nation. ITV has been a powerful force in British broadcasting since its inception in 1955. When commercial television came to Wales for the first time in 1958, it immediately got caught up in with matters of national identity, language and geography. Compared with the BBC, it is a relative newcomer; its growth was slower than that of the BBC and it took until 1962 to complete the network across the UK. Once it had arrived, however, its impact was considerable. The book will provide an historical narrative and critical analysis of independent television (ITV) in Wales from 1958 up until the present day.

A Tolerant Nation? Oct 12 2020 The population of Wales is the product of successive waves of immigration. During the industrial revolution many diverse groups were attracted into Wales by the economic opportunities it offered – notably Irish people, black and minority ethnic sailors from many parts of the world, and people from continental Europe. More recently, there has been immigration from the New Commonwealth as well as refugees from wars and oppression in several parts of the world. This volume engages with this experience by offering perspectives from historians, sociologists, cultural analysts and social policy experts. It provides analyses of the changing patterns of immigration and their reception including hostile and violent acts. It also considers the way in which Welsh attitudes to minorities have been shaped in the past through the activity of missionaries in the British Empire, and how these have permeated literary perceptions of Wales. In the contemporary world, this diverse population has implications for social policy which are explored in a number of contexts, including in rural Wales. The achievements of minorities in sport and in building a multi-racial community in Butetown, for instance, which is now writing its own history, are recognised. The first edition of this book was widely welcomed as the essential work on the topic; over a decade later much has changed and the volume responds with several new chapters and extensive revisions that engage the impact of devolution on policy in Wales.

The second book of The itinerary of Baldwin through Wales. An account of Owain Cyveilioc prince of Powys; with a new version [by Richard Fenton] of his celebrated poem called the Hirlas, or Drinking horn; and his Circuits through Wales. Castles in Wales and the Marches Apr 17 2021 This volume presents a collection of essays providing a picture of the current knowledge of castles in Wales and the Marches. The essays have been brought together to honour a leading scholar in the field of castle studies. The collection is set out in chronological order starting with early earthwork castles and extending through to the 17th-century Civil War. The majority of the papers look at an architectural, archaeological or historical aspect of a particular castle. There are in addition three synoptic papers. The interest of the volume goes beyond the medieval period, and six of the essays have particular relevance for post-medievalists.

Ireland, Wales, and England in the Eleventh Century Dec 14 2020 An analysis of the politics of eleventh-century Wales. The eleventh century was a time of political change throughout the British Isles, and especially so in Wales. Dr Maund examines the relationship of Wales to England and Ireland, and the ways in which Wales was affected by the political activities of these neighbours, setting this in the context of Welsh internal events and policies. She shows the rule of Gruffud ap Llywelyn to have been a turning point for Wales and also for English and Hiberno-Scandinavian politics, and demonstrates that the apparent political chaos was in fact a fascinating network of political activity and growth.

Wales, the Welsh and the Making of America Nov 12 2020 In 1971, Californian congressman Thomas M. Rees told the US House of Representatives that 'very little has been written of what the Welsh have contributed in all walks of life in the shaping of American history'. This book is the first systematic attempt to both recount and evaluate the considerable yet undervalued contribution made by Welsh immigrants and their immediate descendants to the development of the United States. Their lives and achievements are set within a narrative outline of American history that emphasises the Welsh influence upon the colonists' rejection of British rule, and upon the establishment, expansion and industrialisation of the new American nation. This book covers both the famous and the unsung who worked and fought to acquire greater prosperity and freedom for themselves and for their nation.

People, Places and Policy Jan 03 2020 Set within the context of UK devolution and constitutional change, People, Places and Policy offers important and interesting insights into 'place-making' and 'locality-making' in contemporary Wales. Combining policy research with policy-maker and stakeholder interviews at various spatial scales (local, regional, national), it examines the historical processes and working practices that have produced the complex political geography of Wales. This book looks at the economic, social and political geographies of

Wales, which in the context of devolution and public service governance are hotly debated. It offers a novel 'new localities' theoretical framework for capturing the dynamics of locality-making, to go beyond the obsession with boundaries and coterminous geographies expressed by policy-makers and politicians. Three localities – Heads of the Valleys (north of Cardiff), central and west coast regions (Ceredigion, Pembrokeshire and the former district of Montgomeryshire in Powys) and the A55 corridor (from Wrexham to Holyhead) – are discussed in detail to illustrate this and also reveal the geographical tensions of devolution in contemporary Wales. This book is an original statement on the making of contemporary Wales from the Wales Institute of Social and Economic Research, Data and Methods (WISERD) researchers. It deploys a novel 'new localities' theoretical framework and innovative mapping techniques to represent spatial patterns in data. This allows the timely uncovering of both unbounded and fuzzy relational policy geographies, and the more bounded administrative concerns, which come together to produce and reproduce over time Wales' regional geography. [Wales Unchained](#) Oct 31 2019 In *Wales Unchained* Daniel G. Williams explores how Welsh writers, politicians and intellectuals have defined themselves – and have been defined by others – since the early twentieth century. Whether by exploring ideas of race in the 1930s or reflecting on the metaphoric uses of boxing, asking what it means to inhabit the 'American century' or probing the linguistic bases of cultural identity, Williams writes with a rare blend of theoretical sophistication and accessible clarity. This book discusses Rhys Davies in relation to D. H. Lawrence, explores the simultaneous impact that Dylan Thomas and saxophonist Charlie Parker had on the Beat Generation in 1950s America, and juxtaposes the uses made of class and ethnicity in the thought of Aneurin Bevan and Paul Robeson. Transatlantic in scope and comparative in method, this book will engage readers interested in literature, politics, history and contemporary cultural debate.

The History and Topography of Ireland Apr 05 2020 Gerald of Wales was among the most dynamic and fascinating churchmen of the twelfth century. A member of one of the leading Norman families involved in the invasion of Ireland, he first visited there in 1183 and later returned in the entourage of Henry II. The resulting *Topographia Hiberniae* is an extraordinary account of his travels. Here he describes landscapes, fish, birds and animals; recounts the history of Ireland's rulers; and tells fantastical stories of magic wells and deadly whirlpools, strange creatures and evil spirits. Written from the point of view of an invader and reformer, this work has been rightly criticized for its portrait of a primitive land, yet it is also one of the most important sources for what is known of Ireland during the Middle Ages.

In Search of Wales Dec 26 2021 H. V. Morton's famous and much-loved travelogue of Wales. Singularly susceptible to Celtic romance and history, H. V. Morton goes in search of Wales, and finds equal delight in climbing Snowdon (inclement weather aside) and going down a coal mine. Bustling with intriguing local stories and characters, Morton's fascinating account reaches from the scenic grandeur of the north to the domestic beauty of the industrial south. In the Vale of Clwyd it rains "with grim enthusiasm," while at the Eisteddfod in Bangor, he is "slightly worried by the trousers of bard and druid, which are visible for a few inches below their gowns. Father Christmas has this same trouble with his trousers." Anecdotal, leisurely, full of character and event, insight, and opinion, this is travel writing of the very highest order.
