**On Revision, Editing, and Proofreading** Jul 31 2022 This is book number 8 in this series and I hope it helps beginners who are about to face editing. Writing is fun, editing is not. At least that's how I feel about it. But it has to be done. And for your own sake, I believe it is important for beginners to do their own editing, at least at first. Go through it and get your work as perfect as it can be before you entrust it to anyone else. There are two reasons for this. The first, and most important, is that you will learn from it. We all learn from our mistakes, and as you edit you will notice mistakes that you make and hopefully become more aware and less likely to make those mistakes in your future work. The second is that you need to be sure your work is what you intended it to be before you let anyone else offer an opinion on it. It will ensure that your work remains your own. Also, editing is an expensive business, so the more you do initially the less will be needed by someone you are paying. There are tips aplenty in this little book. I hope it helps you.

Now in its second edition, revised and extended through Deng Xiaoping and Jiang Zemin--era China, this classic volume remains unrivaled for its wide selection of source readings on history, society, and thought in the world's largest nation. Award-winning China scholar Wm. Theodore de Bary -- who edited the first edition in 1960 -- and his coeditor Richard Lufrano have revised and updated the second volume of Sources to reflect the interactions of ideas, institutions, and historical events from the seventeenth century up to the present day. Beginning with Qing civilization and continuing to contemporary times, volume II brings together key source texts from more than three centuries of Chinese history, with opening essays by noted China authorities providing context for readers not familiar with the period in question. Here are just a few of the topics covered in this second volume of Sources of Chinese Tradition: • Early Sino-Western contacts in the seventeenth century; • Four centuries of Chinese reflections on differences between Eastern and Western civilizations; • Nineteenth- and twentieth-century reform movements, with treatises on women's rights, modern science, and literary reform; • Controversies over the place of Confucianism in modern Chinese society; • The nationalist revolution -- including readings from Sun Yat-sen and Chiang Kai-shek; • The communist revolution -- with central writings by Mao Zedong; • Works from contemporary China -- featuring political essays from Deng Xiaoping and dissidents including Wei Jingsheng. With more than two hundred selections in lucid, readable translation by today's most renowned experts on Chinese language and civilization, Sources of Chinese Tradition will continue to be recognized as the standard for source readings on Chinese civilization, an indispensable learning tool for scholars and students of Asian civilizations.

**Online Collaborative Translation in China and Beyond** Nov 30 2019 In this original and innovative work, Yu boldly tackles the increasingly influential collaborative translation phenomenon, with special reference to China. She employs the unique perspective of an ethnographer to explore how citizen translators work together as they select, translate, edit and polish translations. Her area of particular interest is the burgeoning yet notably distinctive world of the Chinese internet, where the digital media ecology is with Chinese characteristics. Through her longitudinal digital ethnographic fieldwork in Yeeyan, Cenci and other online translation platforms where the source materials usually come from outside China, Yu draws out lessons for the various actors in the collaborative translation space, focusing on their communities, working practices and identities, for nothing is quite as it seems. She also theorises relationships between the actors, their work and their places of work, offering us a rich and insightful perspective into the often-hidden world of collaborative translation in China. The contribution of Yu's work also lies in her effort in looking beyond China, providing us with a landscape of collaborative translation in practice, in training, and in theory across geographic contexts. This volume will be of particular interest to scholars and postgraduate students in translation studies and digital media.

**Detox Your Writing** Jul 19 2021 There are a number of books which aim to help doctoral researchers write the PhD. This book offers something different - the scholarly detox. This is not a faddish alternative, it's not extreme. It's a moderate approach intended to gently interrupt old ways of doing things and establish new habits and orientations to writing the PhD. The book addresses the problems that most doctoral researchers experience at some time during their candidature – being unclear about their contribution, feeling lost in the literature, feeling like an imposter, not knowing how to write with authority, wanting to edit rather than revise. Each chapter addresses a problem, suggests an alternative framing, and then offers strategies designed to address the real issue. Detox Your Writing is intended to be a companionable work book – something doctoral researchers can use throughout their doctorate to ask questions about taken-for-granted ways of writing and reading, and to develop new and effective approaches. The authors' distinctive approach to doctoral writing mobilises the rich traditions of linguistic scholarship, as well as the literatures on scholarly identity formation. Building on years of expertise they place their emphasis both on tools and techniques as well as the discursive practices of becoming a scholar. The authors provide a wide repertoire of strategies that doctoral researchers can select from, rather than a linear lock step progression through a set of exercises. The book is a toolkit but a far from prescriptive one. It shows that there are many routes to developing a personal academic voice and identity and a well-crafted text. With points for reflection alongside examples from a broad range of disciplines, the book offers thinking tools, writing tools, linguistic tools, and reading tools which are relevant to all stages of doctoral research. This practical text can be used in all university doctoral training and composition and writing courses. However, it is not a dry how-to-do-it manual that ignores debates or focuses solely on the mechanical at the expense of the lived experience of doctoral research. It provides a practical, theorised, real-world, guide to postgraduate writing.

**Quality In Professional Translation** Jan 01 2020 This book questions the prevalent assumption that ethnicity and nationalist politics had nothing to do with the Cold War and that, far from being 'frozen' until the fall of communism, they remained central to the conflict in Europe. Leading scholars bring their understanding of particular regions to bear on the wider issue of why ethnic explanations were written out of the discourse and whether this was a failure on the part of Western observers. This in turn has led to an overly simple understanding of power flowing downwards, from superpower to nation state and from state to society. Engaging with key thinkers such as Gaddis, Moynihan and Adam Roberts this collection ultimately allows such speculation to be replaced by historical research and bridges the gap between 'high politics' and ethnic concerns.
