*At Swim, Two Boys* Oct 10 2020 Praised as “a work of wild, vaulting ambition and achievement” by Entertainment Weekly, Jamie O’Neill’s first novel invites comparison to such literary greats as James Joyce, Samuel Beckett and Charles Dickens. Set during the year preceding the Easter Uprising of 1916—Ireland’s brave but fractured revolt against British rule—*At Swim, Two Boys* is a tender, tragic love story and a brilliant depiction of people caught in the tide of history. Powerful and artful, and ten years in the writing, it is a masterwork from Jamie O’Neill. Jim Mack is a naïve young scholar and the son of a foolish, aspiring shopkeeper. Doyler Doyle is the rough-diamond son—revolutionary and blasphemous—of Mr. Mack’s old army pal. Out at the Forty Foot, that great jut of rock where gentlemen bathe in the nude, the two boys make a pact: Doyler will teach Jim to swim, and in a year, on Easter of 1916, they will swim to the distant beacon of Muglins Rock and claim that island for themselves. All the while Mr. Mack, who has grand plans for a corner shop empire, remains unaware of the depth of the boys’ burgeoning friendship and of the changing landscape of a nation.

**Who Are You & What Have You Done with My Kid?** Aug 20 2021 So you have a Tween! What now? Dr. Amanda Craig knows what it’s like to watch your child go from sweet elementary student to moody tween in the span of just a few years and she’s here to help navigate you through it! How do we keep our kids close while cultivating the confidence they’ll need to grow up? How do we navigate the inevitable dips, divides, and potholes? Where do we find the strength, self-awareness, and wisdom that amount to a path forward? Despite the parenting opportunities in the tween years, we often spend time focused on academics and the social concerns of elementary school then quickly pivot to worries about safety, drugs, sex and the rebellious behavioral issues of the teen years. We think we’re connecting but we’re not. We miss the neurological explosion that is taking place before us as tweens experience four significant changes that shake them (and us) to their core. Their brains are changing. They feel and experience emotions they do not recognize. They’re hyperaware of themselves. They do not know how to express themselves. Most importantly, parents still have a “seat at the table” to make positive impressions on their tweens as they prepare them for the teenage years.

**The Broken Places** May 05 2020 Susan Perabo's short-story collection, *Who I Was Supposed to Be*, was named a Best Book of 1999 by the Los Angeles Times, The Miami Herald, and the St. Louis Post-Dispatch. The Boston Globe proclaimed the debut "a stunning introduction to a fresh new literary talent." Now Susan Perabo returns with *The Broken Places*, her eagerly anticipated novel about love and honor and how the aftermath of one terrifying night -- and one heroic act -- affects a close-knit family. Twelve-year-old Paul Tucker knows his family is something akin to royalty in small-town Casey, Pennsylvania. His father, Sonny, is a dedicated career fireman, in line for the position of chief, long held by Paul's late

grandfather, a local legend whose heroics continue to occupy the hearts and minds of all who knew and worked with him. Paul's mother, Laura, is a math teacher at the high school; Paul is sometimes annoyed by her worries over him (and her apparent lack of worry over his father), but his life is generally untroubled, his future bright, his time measured by sport seasons. But on a windy October day, the collapse of an abandoned farmhouse forever alters the fates and perceptions of Paul, his family, and those closest to them. Sonny and the other Casey firemen attempt a dangerous rescue to reach a teenager buried under the rubble, and when Sonny himself is trapped by a secondary collapse, Paul, his mother, and the crowd of onlookers believe the worst. The wait is excruciating; it's baby Jessica all over again, but this time the "innocent victim" is sixteen-year-old Ian Finch, a swastika-tattooed hoodlum who may have brought the house down on himself while building bombs. Still, when Sonny emerges from the rubble hours later, the maimed teenager in his arms, the rescue becomes a minor miracle and a major public relations event, a validation of all things American and true. Sonny is immediately hailed as a national hero. And Paul's life is suddenly, and irrevocably, changed. Beyond the limelight, the parades, and the intrusion of the national media into a quiet and predictable life, the Tucker household balance is upset. And Ian Finch's curious and continued involvement in Sonny's life creates a new and troubling set of hurdles for Paul to overcome. Somehow, though his father has been saved, he continues to slip through Paul's fingers. Secrets, lies, and changing alliances threaten Paul's relationship with his father and his mother and his understanding of what holds a family -- and a town -- together. *The Broken Places* is a brilliant meditation on the psychology of heroism, the definition of family, and the true meaning of honor. With pitch-perfect dialogue, subtle but stunning insights, and a dazzling ability to uncork the quiet power of each character, Susan Perabo's *The Broken Places* uncovers and celebrates the unsettling truths of human nature.

**Sight Unseen** Dec 12 2020 The New York Times bestselling author of *Witnessed*, *Intruders*, and *Missing Time* -- three

groundbreaking books on the UFO phenomenon -- returns with astonishing evidence that other-worldly beings are a very real -- and growing -- part of our lives. In *Sight Unseen*, Budd Hopkins and coauthor Carol Rainey show how fascinating discoveries in modern science support the plausibility of the UFO phenomenon. Featuring sixteen never-before-published cases, *Sight Unseen* probes two newly uncovered patterns in alien abduction: cases of UFO "invisibility" and reports of genetically altered alien beings who interact with humans during their routine lives. The "invisibility" accounts detailed by Hopkins include numerous daylight abductions in densely populated urban areas -- all apparently unseen and accomplished through a technology of invisibility. Two air force non-coms are snatched from the tarmac of a busy military airfield. An Australian family is levitated up into a hovering craft while the father remains paralyzed on the ground with a camera to his eye. The resulting evidence on film is discussed in terms of our own scientific advances. In the second series of cases, abductees report encounters with beings who appear human but apparently possess paranormal powers and stunted emotional ranges. Three young women, unknown to each other, are mysteriously summoned to "job interviews." In ordinary office settings, they encounter human-looking beings who lead them into baffling UFO abduction experiences. A Wisconsin farmer meets "Damoe," a man with odd behavior who closely resembles his son. Damoe eventually reveals himself as an accomplice of UFO occupants in a startling abduction of the farmer and his wife. Five-year-old Jen is abducted at night to a nearby playground. There she must teach the techniques and skills of "play" to twelve seemingly identical, quasi-human children. Along with these bizarre, first-person stories told by credible people, Hopkins and Rainey explore cutting-edge advances in our own technologies and scientific theories that show how these new UFO patterns could have a concrete basis in contemporary science. Included are an examination of cloaking devices for aircraft, mind-control technologies, and teleportation achieved in the lab. Perhaps the most compelling argument to support these cases lies in the startling and controversial new science of transgenics that actually allows for the creation of alien/human beings.
