Building Great Sentences Jul 24 2019 Based on the bestselling series from *The Great Courses*, *Building Great Sentences* celebrates the sheer joy of language—and will forever change the way you read and write. Great writing begins with the sentence. Whether it's two words ("Jesus wept.") or William Faulkner's 1,287-word sentence in *Absalom! Absalom!*, sentences have the power to captivate, entertain, motivate, educate, and, most importantly, delight. Yet, the sentence-oriented approach to writing is too often overlooked in favor of bland economy. *Building Great Sentences* teaches you to write better sentences by luxuriating in the pleasures of language. Award-winning Professor Brooks Landon draws on examples from masters of long, elegant sentences—including Don DeLillo, Virginia Woolf, Joan Didion, and Samuel Johnson—to reveal the mechanics of how language works on thoughts and emotions, providing the tools to write powerful, more effective sentences.

Reading Like a Writer Sep 29 2022 *DIV* In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour and wisdom, *Reading Like a Writer* will inspire readers to return to literature with a fresh eye and an eager heart – to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, *Prose* cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading. /div

Dimitri may be small, but his heart is as big and as open as a cloudless blue sky. "I love you," Dimitri tells his new classmates at preschool. "I love you," Dimitri tells the class guinea pig and the ants on the ground. "I love you," Dimitri tells the paintbrushes and the tree with heart-shaped leaves. So why doesn't anyone say "I love you" back? Could love also be expressed in unspoken ways? In a familiar story of navigating the social cues of new friendship, author Jane Porter and illustrator Maisie Paradise Shearring offer a thoughtful tribute to the tender ones—those who spread kindness simply by being, and who love without bounds.

How to Read Like a Writer Aug 05 2020 When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

Loving Literature Jun 02 2020 Of the many charges laid against contemporary literary scholars, one of the most common and perhaps the most wounding is that they simply don't love books. And while the most obvious response is that, no, actually the profession of literary studies does acknowledge and address personal attachments to literature, that answer risks obscuring a more fundamental question: Why should they? That question led Deidre Shauna Lynch into the historical and cultural investigation of *Loving Literature*. How did it come to be that professional literary scholars are expected not just to study, but to love literature, and to inculcate that love in generations of students? What Lynch discovers is that books, and the attachments we form to them, have long played a role in the formation of private life that the love of literature, in other words, is neither incidental to, nor inextricable from, the history of literature. Yet at the same time, there is nothing self-evident or ahistorical about our love of literature: our views of books as objects of affection have clear roots in late eighteenth-century and nineteenth-century publishing, reading habits, and domestic history. While never denying the very real feelings that warm our relationship to books, *Loving Literature* nonetheless serves as a riposte to those who use the phrase "the love of literature" as if its meaning were transparent, its essence happy and healthy. Lynch writes, "It is as if those on the side of love of literature had forgotten what literary texts themselves say about love's edginess and complexities." With this masterly volume, Lynch restores those edges, and allows us to revel in those complexities.
